Re Trittech Engineering

To whom it may concern

Trittech Engineering have successfully completed the following mechanical services installation projects based on designs, specifications and drawings prepared by our office over the last three years.

- | | | |
|------------------|----------------------------|-----------------------|
| • Loughan House | 64 Bed Accommodation Block | Irish Prison Services |
| • Blanchardstown | Women's Refuge Centre | Sonas |

Our experience working with Trittech Engineering has always been extremely positive. We have always found their standard of workmanship and contract administration to be of the highest standard. They are very co-operative and proactive in their approach. They are attentive to detail, both in terms of construction work and final handover documentation.

We would have no hesitation in recommending Trittech Engineering for similar projects in the future.

Yours Sincerely,

A handwritten signature in blue ink that reads 'Brendan Dervan'.

Brendan Dervan, C Eng
