**Re: OPW MTM CONTRACT**

I would like to confirm that Tritech Engineering are currently engaged by PJ Hegarty's as the Mechanical Contractor on the OPW Measured Term Maintenance Contract. This contract provides for the maintenance of over 300 public buildings in the Dublin Metropolitan area.

To date, I have found Tritech to be a very professional operation who have performed with distinction to enable PJH to provide the best possible service to the client. This has included carrying out refurbishment works as well as reacting to emergency works within the OPW property portfolio.

I would have no hesitation in recommending Tritech for future projects and I am confident that they will be a success in any and all such endeavours.

Yours faithfully  
**P.J. HEGARTY & SONS**
